# “Quotes”

A group of 8<sup>th</sup> grade band students were asked the following question:  
*Why is music important in your life, and to the world as a whole?*  
Here is just a sampling of the wonderful responses that were given...

- “Music lifts up your soul and releases it.”  
“Music is what moves everyone, and without it, life would be pointless.”  
“Music is important because it can describe people, places, movies, or animals that words can’t.”  
“Without music, the world would have a hard time understanding other things.”  
“Music is important because it helps you express yourself in ways that you can’t with normal talking.”  
“Music is important to me because it gives me something to look forward to everyday.”  
“Music is important because it allows people to be creative and it offers more life to people.”  
“Life without music would be boring... no background music for movies, and life would sound dull.”  
“Music, without it there would be silence, less joy, and darker times.”  
“Music is important to my life because it makes dancing and singing a lot easier. It makes life interesting and hardcore!”  
“Music is important to people’s lives because it makes things better when things aren’t going right in the world.”  
“Music is so much a part of my life that I don’t know what I would do if there was none.”  
“The world is greatly changed by music.”  
“People don’t notice, but music changes people’s moods, feelings, and even their actions.”  
“Music is very important in my life because I worship God when I play at church”  
“When I am feeling bad, it helps me not feel bad. Music is important in life because you need it for your national anthem.”  
“Music is important because it is a way to express myself. It shows how someone feels. It just adds to everything.”  
“I like that I can make people happy doing what I like.”  
“I think music is important because music is a way that people can express themselves and if people couldn’t express themselves there would be a lot more violence in the world.”
